What will we provide?

Understand Your Needs

We meet with you to understand your objectives, requirements and background context, so we can ensure to meet your measures of success.

Design Your Event

Your event will be designed to meet your attendee, venue and organisational needs. We work with you on this so that the agenda for the day will achieve your objectives and maximize participation.

Facilitate Your Event

We will facilitate your meeting to meet your objectives. All venue details are managed by us to ensure a well-run day and allow all attendees to focus on the contents of the day. The day's outputs, actions and findings will be recorded throughout.

Follow Up Your Event

We will provide you with a report to documents all comments, feedback, actions and outcomes from the meeting. We will help you to communicate the actions and can advise you on implementing actions.

Why should we use you?

Our facilitators are trained and assessed on both the designing of effective workshops and facilitation skills to maximize client output. We have many years experience of providing facilitated events for SME and corporate clients within industries that include IT, rail and manufacturing.

We can design and facilitate a single event, regular reviews as part of a larger process or on a rolling, 'as you need it' basis.
